Libya Alert: UAV targets LPG facility on Tripoli's Airport Road on September 3; avoid all travel

Current Situation:

- According to unconfirmed reports on September 3, a UAV targeted a warehouse along Tripoli's Airport Road at approximately 06:30 (local time).
- The UAV was reportedly directed at liquefied petroleum gas (LPG) storage tanks at the facility but failed to strike the tanks.
- Footage reportedly shared from the location shows broken components of a quadcopter. Unconfirmed reports further claim that the UAV was a Ukrainian-origin First-Person View (FPV) UAV.
- No casualties or damage to the gas tanks were reported. The UAV's origin, the party responsible for the incident, and the intended target remain unclear at the time of writing.
- Libyan authorities have not independently confirmed the incident as of writing.

Recommendations:

1. Those residing and operating in Tripoli during the morning hours are advised to avoid all travel to the Airport Road due to the reported incident.
2. Remain cognizant of local security developments and avoid the vicinity of any security operations or suspected drone activity.
